

PEDIATRIC CANCER

Presentation and Q&A Session

WEDNESDAY OCT. 4TH | 12:00 PM

JAY SEXTER AUDITORIUM

Come join the Pediatric Club and SCOPO to learn more about pediatric cancer and gain insight into the life of pediatric cancer patients and survivors.

We welcome Dr. Oya Tugal, a pediatric hematologist/oncologist, as a guest speaker to provide us with a short, but valuable presentation. A Q&A session will also follow with a panel of cancer survivors, including one of Dr. Tugal's patients and a few of our very own student doctors!

As future physicians, we hope you take advantage of this opportunity and leave with a better understanding of the true hardships these patients faced, and may still be facing.
